

Action Update from 350 Madison

Join our Get Out the Vote initiative, check out our new website, get a "Talk Climate" mask, and more with our action update.

Video: Rebecca Lee Finster

Get out and vote Nov. 3!

Make sure you're registered to vote — and then VOTE on Nov. 3!

And along the way, join 350 Madison's non-partisan Get Out the Vote initiative. With only a month until the election, 350 Madison is going all-out to help increase turnout. We've been calling potentially purged voters, taking Madison's voter ambassador training, and creating GOTV art like this [video](#). Sign up to help out at 350madison.org/upcoming-events/ or contact Volunteer Coordinator Nikki Darga at nikki.darga@350madison.org.

More election info at cityofmadison.com/clerk & myvote.wi.gov/.

WHY SUPPORT MADISON'S ELECTRIC VEHICLE READY ORDINANCE?

- 1 EVs will soon replace gasoline powered vehicles. Madison's infrastructure must be ready for that change.
- 2 Reduced transportation emissions.
- 3 Moving closer to meeting Madison's carbon reduction goals.

Show your support for EV growth!

350 Madison Members: We need your help! Madison is on the cusp of passing an Electric Vehicle (EV) Readiness Ordinance that will help city infrastructure be more resilient for the future. EVs will soon replace gasoline powered vehicles, and we need to be prepared. EVs help reduce transportation emissions and bring the city closer to meeting its carbon reduction goals. Please [contact city leaders](#) and tell them that you support this ordinance and want them to do the same.

Wisconsin Green Wave GOTV Campaign: Become a Relational Organizer!

With the election fast approaching, you may have seen the term “relational organizing” being used by everyone from grassroots organizations to presidential candidates (including 350 Madison). It is not a new term, in fact, it’s used to describe something you do all the time: talking to people you know personally and persuading them to take an action. In this case, that action is voting.

We’re much more likely to do something if we’re convinced to do so by a friend or loved one than by a person we don’t know at all. For this reason, we should all be relational organizers. Here at 350 Madison, we are encouraging and facilitating these personal conversations by providing training and an app to use to keep track of your progress.

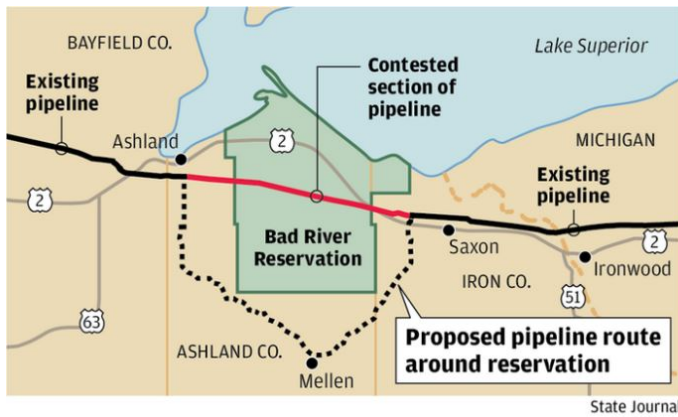

Please join us for a short training to learn about our Relational Organizing Campaign. Training's are being offered on:

- Wednesday, Oct. 7th at 6:30 p.m. or
- Saturday, Oct. 10th at 10:30 a.m.

This kind of organizing is extremely effective, so we would love for as many people as possible to join the movement! Register for the Oct. 7th meeting [here](#) and the Oct. 10th meeting [here](#).

Rebuilding healthy ecosystems after environmental tragedies

In September, the nation watched as the West Coast went up in flames. As the nation reckons with rebuilding after these fires, one thing is certain: We'll need clean water and healthy

ecosystems. Chequamegon Bay has a long, rich history of gathering and growing food in ways that keep the water safe and healthy. Threatening that is Enbridge's plans to reroute their oil pipeline, Line 5, along the Bad River. Enbridge wants to put their pipeline to cross the Bad River just upstream next to Copper Falls, where oil spills will rage through the watershed much like how fire is tearing through the West. Rerouting Line 5 is just another way that a big corporation is trying to cut corners and get off easy. We know what we need to create healthy ecosystems: clean water, healthy food, and hard work that's respected and appreciated.

LET'S CUT TO THE CHASE...

STOP BANKING ON CLIMATE CHAOS!

Digital takeover: Tell Chase to stop banking on climate chaos

"When I learned that Chase is the largest funder of fossil fuel projects like Enbridge's dangerous pipelines through Wisconsin, I canceled my cards." - Katie Reynolds

After canceling her Chase credit card, Katie helped to expose the bank's role in climate chaos by posting a public review of her local branch.

And You Can Too! It is a simple but powerful action that takes less than a minute. **Complete this sign-up form to find out how to join Katie and other 350 Madison members in a Digital Takeover of the fossil fuel funders.**

Take Action Now!

Get a "Talk Climate" mask today!

Donate \$50 or sign up for a recurring monthly donation of any amount,* and we'll send you a "Talk Climate" face mask. 350 Madison relies overwhelmingly on donations from supporters to achieve all of our climate wins, and this initiative is no different. Please consider a contribution to fund 350 Madison's ***Get Out the Vote*** training, organizing, volunteer support and communications. Our staff and volunteer team are working tirelessly to provide a host of opportunities where you can make a real difference. Check out our website — there's something for everyone!

Donate Now!

The masks are soft 100% cotton jersey with three layers and a filter pocket. The manufacturer is donating 10% of its profits to Covid relief and response.

*Current monthly donors who make a one-time donation of any amount will receive a face mask. Many thanks to Carol and Andy Phelps for making this promotion possible!
