Critical Race Theory Explained - KOAA

<https://www.youtube.com/watch?v=8sGbLdAt0LY>

# Critical Race Theory

- *Racism is systemic in the institutions of the United States. These institutions function to preserve the dominance of white people in society. CRT is a way of looking at how racism exists in society and where improvements can be made. It does not focus on individuals!*
- Opponents of CRT **falsely** say:
  - It teaches that all white people are racist
  - It teaches that all white people should feel guilty about being white
  - It teaches people to hate the United States
  - It teaches that one race is inherently superior to another race.

***CRITICAL RACE THEORY TEACHES NONE OF THESE THINGS!***

## Across the Country:

As of July 15, 26 states have introduced bills or taken other steps that would restrict teaching critical race theory or limit how teachers can discuss racism and sexism, according to an Education Week analysis. **Eleven states** have enacted these bans, either through legislation or other avenues.

# What's Happening in Wisconsin?

Republican-backed bills would ban public schools, universities and technical colleges from teaching students and training employees about concepts such as systemic racism and implicit bias

Would prohibit discussion of:

- one race or sex is superior to another;
- a person is inherently racist by virtue of his or her race or sex;
- a person's moral character is necessarily determined by race or sex;
- a person should feel guilty for past acts committed by people of his or her race or sex; and s
- systems based on meritocracy are racist or sexist or designed to oppress people of another race.

**CRT doesn't teach any of these prohibited items!**

If you oppose the false portrayal of Critical Race Theory, and you think we need **more** discussion about race and systemic racism, **not less**, please call or write a letter opposing AB 411 and SB 411 to the Wisconsin bill's lead sponsors:

- Senator Andre Jacque at (608) 266-3512 or by email at: [Sen.Jacque@legis.wisconsin.gov](mailto:Sen.Jacque@legis.wisconsin.gov), or
- Representative Chuck Wichgers (608) 266-3363, or by email at: [Rep.Wichgers@legis.wi.gov](mailto:Rep.Wichgers@legis.wi.gov), or
- To your own State Representative to oppose these bills

# Tar Sands Team Update

## Line 3 is at a crucial stage - how can we best help?

1. Go north?
2. Prepare for National Day of Action Aug. 25 targeting Army Corps of Engineers.

## Getting ready for the big Line 5 battle

1. Local organizing in Ashland area: buttons, lawn signs, bumper stickers, infographics, ads
2. Preparing for a response to the Draft EIS when it drops: artistic response, phonebanking, LTE's etc.

## **Line 5 Endangers Ojibwe Wild Rice Beds**

THE KAKAGON AND BAD RIVER SLOUGHS ARE COMPOSED OF BOGS AND COASTAL LAGOONS THAT HARBOR THE LARGEST NATURAL WILD RICE BED ON THE GREAT LAKES. A PIPELINE RUPTURE COULD HAVE CATASTROPHIC EFFECTS ON THE KAKAGON, BAD RIVER SLOUGHS, AND GREAT LAKES.

# Warning:

Would you put an oil pipeline here?

Ashland County, July 2016

**The planned route of Enbridge's Line 5 reroute is disastrous.  
Here's why.**

**In the Penokee Hills, just upstream of Lake Superior, heavy rainfall creates raging stormwaters that can destroy a road - and oil pipelines too! Why? Because rain doesn't sink into volcanic rock – it runs off rapidly. Could Enbridge's proposed Line 5 reroute survive a July 2016-sized storm? Or worse?**

The background features a stylized landscape with several layers of green mountains in the background and a dark blue lake in the foreground. The text is overlaid on this graphic.

# **Protect Lake Superior Reject Line 5!**

**Enbridge has millions to spend on propoganda, but  
they can't fool us. Read the facts and consider.**

# How you can help the Tar Sands Team

We need

- more graphic designers
- phonebankers to help us make Line 5 a statewide controversy
- people to write letters to Gov. Evers, to Secretary Cole, to the editor
- bold artistic people to get the media's attention with creative events.
- people who can paint, press buttons on a simple machine, etc.
- planners, doers, photographers, videographers, video editors, etc.

## Tar Sands Team

*The Tar Sands Campaign is fighting Enbridge tar sands pipelines in WI. Our aims are to halt plans for a Line 66 in the Line 61 corridor, and to stop the reroute of Line 5 in Northern WI and to #ShutDownLine5! We support efforts led by those most impacted, including tribes, landowners, and affected community members*

Meeting: Monday Sept. 13 (5:45 to 6:45 p.m, to plan further work to stop these pipelines.

# September Meeting

Meeting September 13, to avoid Labor day weekend.

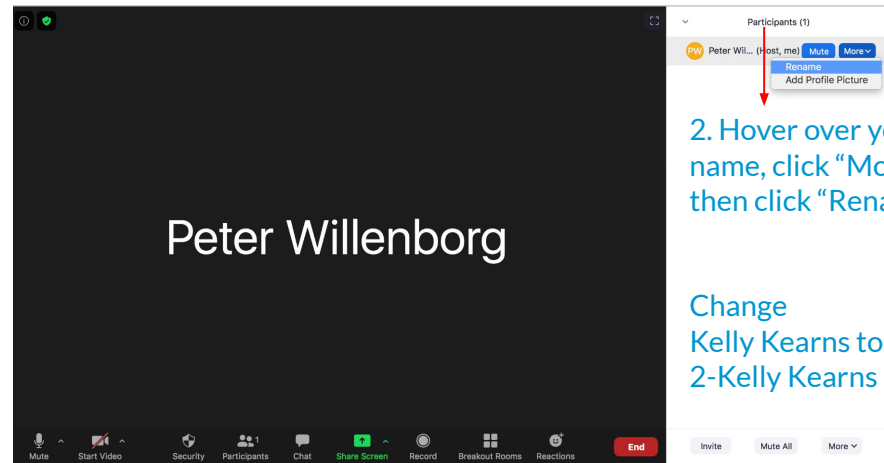

Speaker: Morgan Edwards

Morgan studies human-centered energy responses to the climate crisis across policymaking scales. Current projects focus on fixing leaks in natural gas distribution systems, accelerating the phase-out of coal power plants, and assessing the equity implications of large-scale use of negative emissions technologies.
